

To All of Our Heroic Staff and Courageous Caregivers...

You are...

The eyes of hope, the hands of care and the heart of courage.

You are...

What binds us together when we are apart.

You are...

Mothers and fathers and sons and daughters who treat us all like family.

You are...

Why our community is stronger than any crisis.

You are...

The heroes too humble to call yourselves that. So we will.

Your action,
commitment and courage are what
history will always remember.
And what we will never forget.
